# DOMINO

# M230i-T4/T6 - Applicator highlights

**COMPLIANCE**

The applicator is compliant with all the safety requirements of the Machinery Directive.

**MODULAR CONCEPT**

A modular design concept allows for easy reconfiguration in the field. Reduced time for installation, service and changing media increases uptime and preserves OEE.

**CLEAN DESIGN**

The clean design includes an applicator cover hiding and protecting tubes, wires and moving parts. The design works as dust protection to increase product life time and simplify cleaning.

**DISTANCE TO PRODUCT**

Choose the effective stroke length that is most suitable for your business, 160mm, 360mm or 560mm.

**60% SLIMMER**

The new applicator is as much as 60% slimmer depending on configuration, giving you the most compact system on the market, but still full featured in capacity.

**EASE OF USE**

The innovative design makes it simple to separate the applicator from the printer when reconfiguring and servicing.

**HANDLES A VARIETY OF LABELS**

Non-stick pads that are easy to switch from one size to another with dimensions ranging from 50x66mm to 150x210mm gives you the flexibility and efficiency you need in your day to day operations.

**MATCHLESS PERFORMANCE**

Driving label integrity through system design and automated checking. An integrated blow, continuous vacuum and no-drop functionality, ensures each label is carefully applied.

**ENVIRONMENTALLY EFFICIENT**

Efficient machine movements and automatic standby function ensures low power requirements. Quiet operation and short cycle times deliver high levels of efficiency with minimal factory impact.

**SAFE OPERATION**

Auto stop feature prevents operator injury or damage to the printer if the path of the applicator is interrupted.

## Download the app

Discover the features and benefits of the M-Series. Download the augmented reality app from the QR code below. Hold your tablet or smartphone in front of the printer image and step into a whole new reality.

## Distance to your product

With the **M2**30i-T4 and **M2**30i-T6 you can choose the effective stroke length that is most suitable for your business. We offer three standard stroke lengths, 160mm, 360mm and 560mm. Thanks to a very small footprint and a smart design it is possible to get close to the product, making installations easy on constrained production lines.

## Possible label sizes

Each pad size fits a selection of labels sizes. The range of standard pad sizes allows ultimate flexibility in choice of label that can be used with the flexibility to adapt when label sizes or product change.
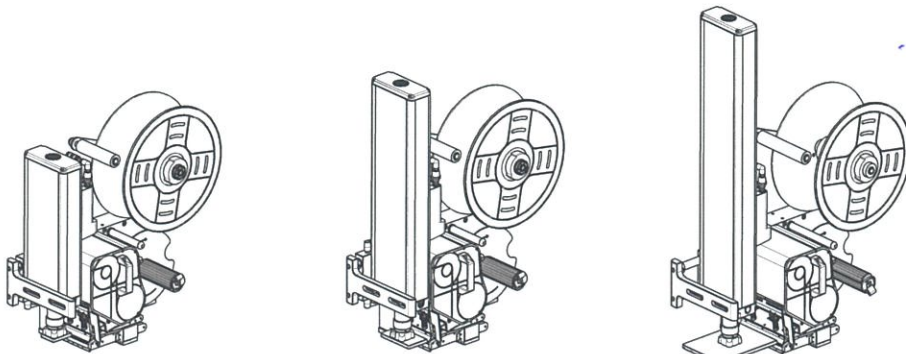

| Pad options | Recommended label size |
|---|---|
| 50x66mm | 32x55mm - 50x66mm |
| 80x66mm | 47x55mm - 80x66mm |
| 110x66mm | 62x55mm - 110x66mm |
| 110x110mm | 62x72mm - 110x110mm |
| 110x160mm | 62x97mm - 110x160mm |
| 150x110mm | 82x72mm - 150x110mm |
| 150x210mm | 82x122mm - 150x210mm |

## Smallest footprint

Although the **M2**30i-T4 and **M2**30i-T6 have a robust and flexible design, they still have the smallest overall machine footprint on the market. The matrix below gives the dimensions for the different models (LxHxW) in mm.

| Model \ Pad | 50x66mm | 80x66mm | 110x66mm | 110x110mm | 110x160mm | 150x110mm | 150x210mm |
|---|---|---|---|---|---|---|---|
| M230i-T4 160mm | 560x625x272 | 560x625x272 | 560x625x272 | 560x625x272 | 621x625x272 | 560x625x272 | 671x625x272 |
| M230i-T4 360mm | 560x752x272 | 560x752x272 | 560x752x272 | 560x752x272 | 621x752x272 | 560x752x272 | 671x752x272 |
| M230i-T4 560mm | 560x952x272 | 560x952x272 | 560x952x272 | 560x952x272 | 621x952x272 | 560x952x272 | 671x952x272 |
| M230i-T6 160mm | 560x625x327 | 560x625x327 | 560x625x327 | 560x625x327 | 621x625x327 | 560x625x327 | 671x625x327 |
| M230i-T6 360mm | 560x752x327 | 560x752x327 | 560x752x327 | 560x752x327 | 621x752x327 | 560x752x327 | 671x752x327 |
| M230i-T6 560mm | 560x952x327 | 560x952x327 | 560x952x327 | 560x952x327 | 621x952x327 | 560x952x327 | 671x952x327 |
