# M230i-FS

Two side labelling from a single printer applicator

The **M2**30i-FS100 and **M2**30i-FS150 provide you with a flexible, multi-purpose labelling unit that are specially designed for versatile and reliable labelling on two sides of a case or cartoon. Delivering both accuracy and speed, they provide you with a trustworthy, robust and easy to use system. Experience consistent labelling for many years to come – even in the harshest industrial environments.

Easy to operate - simple operation and unrivalled capability

◆ Clear monitoring & control with optional *TouchPanel* colour user interface
◆ Easy navigation and operation with intuitive *QuickStep* software
◆ Minimum downtime with tool-free magnetic printhead mounting system & expanding ribbon mandrels

Lower Total Cost of Ownership – reduced cost and increased efficiency

◆ Increased printhead life
◆ Lower material wastage with full label coverage allowing optimum label size
◆ Increased uptime with fast consumable and print head changes

Improved performance - sets the standard for efficiency

◆ 600m ribbon & label roll capacity within a compact footprint
◆ Increased print speed for reduced cycle times
◆ Robust design supports all mounting orientations
◆ Supply chain compliance with full GS1 coding capability at high resolution including bar codes, text and graphics

Domino. Do more.

Benefits of **M230i-FS** Applicator

◆ Flexible, multi-purpose two side labelling solution

◆ Labelling of moving products

◆ Accurate and consistent label position

◆ Easy and fast consumable changes

◆ Front-side, back-side, top-front or top-back labelling

◆ Applies last label printed

◆ Industrial, robust design

◆ Left and right hand versions as standard

Optional *QuickStep* User Interface

For effortless control and status reporting *QuickStep* is our unique, simplified operator interface that gets the printer into action quickly and simply. No complex menus or parameters, just enter the job and away you go.

◆ Quick access to favourite menus and settings via large user-friendly icons and customisable home screen.

◆ Easy, prompted input of data into label templates.

◆ Speed up changeovers and help eliminate coding selection errors with simplified Message Store and live WYSIWYG preview.

Technical Specification:

Print technology:	Thermal Transfer
Print resolution:	12 dots/mm (300dpi)
Typical speeds:	2 x 12 labels per min
Label sizes:	Up to 150 x 110mm
Label & ribbon lengths:	600m
Distance to product:	Up to 90mm
Pneumatics:	6 bar compressed air
Communication:	2 x RS232, 1 x USB 2.0, Ethernet
I/Os (configurable):	10 Inputs and 10 Outputs
User interface:	Graphical display with 25 languages
Overall Dimensions: (L x H x W)	581 x 629 x 477mm (Printer & Applicator min)
	581 x 629 x 532mm (Printer & Applicator max)
	406 x 129 x 278mm (Controller - PCU)
