LMUe6000-JM solves all of your worries!

Since it is used for a short period of time, I want an automatic pasting machine that can be **easily installed and removed!**

I want to put a lot of POP labels on a **cylindrical container ...**

I decided to attach a one-point label to products that are packaged in **multiple packaging lines ...**

How to put a lot of sealing labels in the **absence of manpower and time ...?**

In a hurry to put a POP label on a **transparent container ...**

Please see the following QR code / website for the solution.
